PREFACE

The New Mexico Consortium of Academic Libraries provides a forum for the discussion of common goals and communication among the New Mexico Academic Libraries staff and citizens within our state.

NMCAL libraries share resources, services, and information for the benefit of students, faculty, and search for solutions to common problems.

Key to achieving primary functions is the continuing need for statistical information on academic libraries in New Mexico. This report on 2010 NMCAL academic library statistics contributes to meeting this need and includes the following:

2010 ALS Specialized Tables
2010 ALS Rank Order Tables for NMCAL
2010 ALS Data Tables for NMCAL Libraries

In using this data, the following should be noted:

- ▶ Non-response rates vary from institution to institution and from category to category. A blank indicates data was not reported by the library for a category. Caution should be exercised in using data where non-response rates are high.
- ▶ Definitions for reporting categories are those specified in instructions for the 2010 Academic Library Survey reporting form.
- ▶ The data is published as reported by each institution in the 2010 ALS Academic Survey.

ACKNOWLEDGMENTS

The development of this report would not have been possible without the guidance and support of other individuals and institutions. Their collective contributions are appreciated. Special acknowledgments and thanks are extended to:

- ▶ The NMCAL libraries who submitted 2010 Academic Library Survey data, which was the data source for information included in this report.
- ▶ New Mexico State University Library staff support by Lorena Ramos in producing this report.
- ▶ New Mexico State University Library for funding the printing and distribution costs of this publication.

NM Inst Mining & Tech	The Joseph R. Skeen Library lost Owen Ellard as its director in 2008. For the period 2008-2010 it had an interim part-time director. In June of 2010, Dr. Lisa Beinhoff took over as library director. Since many of the historical administrative files were missing or incomplete, it was impossible for Dr. Beinhoff to correct the obvious errors in the 2008 survey. Since 2008, the library has lost 240 hrs per week of professional (not work-study worker) staffing. Since the library did not reduce its hours of operation to reflect this reduced staffing, library patrons have found the library open, but the library's services and staffing greatly reduced. The library's door count continued to climb during this time, because the library offered all patrons unlimited free gourmet coffee, and college students like caffeine, a lot
